Pioneer 700-2P

Work or fun, the new Pioneer 700-2P can get it all done. Full of Honda technology and features like the 675cc liquid-cooled engine with fuel injection for easy startups and flawless operation at higher altitudes.

We've made big Improvements in the cab including added storage (almost twice the storage of the previous model), new tilt steering wheel for easy access, and larger cup holders. An updated dash switch panel and an LCD screen that's twice the size of the previous makes viewing important info easy.

Updated Electronic power steering increases torque assist by more than 25%, improves handling and features a return to centre function that improves responsiveness and reduces steering effort. The new radiator-fan vent, increased frame strength-to-weight ratio and revised front and rear driveshaft boots improve puncture resistance, reliability, durability, and quality.

Brent Scammell Honda, the specialists in offroad and farm motorcycles and ATVs. Buy from the people who ride, we know offroad motorcycles (and motards) because we ride and race them ourselves!
