EX-DEMO TRX700 FA5R
68Km
8 Hours

When it comes to our TRX700, theres big news, and some big improvements too. Check out these highlights - new, bigger 26-inch tyres with a more aggressive tread pattern, mounted on new cast-aluminum wheels. New instruments with a bigger screen thats easier to read. More integrated storage. New racks front and rear that can carry heavier loads (50 percent more for the front and 42 percent more for the rear) and now feature our super-convenient Honda Pro-Connect accessory quick-attach system. Updates to the automatic transmission. A bigger, tougher front bumper, and sharp new styling.

What hasnt changed is the fact that its the largest-displacement ATV in our lineupwith the same engine as in our hard-working Pioneer 700 side-by-side. It also offers our smooth-shifting fully automatic transmission and selectable TraxLok four-wheel-drive system. The fully independent rear suspension is a big part of the TRX700's uncompromising comfort, making it perfect for all day riding.

Brent Scammell Honda, the specialists in offroad and farm motorcycles and ATVs. Buy from the people who ride, we know offroad motorcycles (and motards) because we ride and race them ourselves!
